Reported (GAAP) Third-Quarter and Year-to-Date 2024 Results

	Third-Quarter	Year-to-Date
Net revenue performance	(0.6)%	0.7%
Foreign exchange impact on net revenue	(2)%	(1)%
Earnings per share (EPS)	\$2.13	\$5.84
EPS change	(5)%	4%
Foreign exchange impact on EPS	(2)%	(1)%

Organic/Core (non-GAAP)¹ Third-Quarter 2024 Results

	Third-Quarter	Year-to-Date
Organic revenue growth	1.3%	1.9%
Core EPS	\$2.31	\$6.20
Core constant currency EPS change	5%	7%

PURCHASE, **N.Y.** - October 8, 2024 - PepsiCo, Inc. (NASDAQ: PEP) today reported results for the third quarter 2024.

"Our businesses remained resilient in the third quarter, despite subdued category performance trends in North America, the continued impacts related to certain recalls at Quaker Foods North America and business disruptions due to rising geopolitical tensions in certain international markets. Strong cost controls aided our profitability, as we made incremental investments to improve our marketplace competitiveness," said Chairman and CEO Ramon Laguarta.

Laguarta continued, "For the balance of the year, we will continue to invest in commercial activities and brand support to stimulate consumer demand. Our investments will be enabled by elevating and advancing productivity initiatives across our entire organization. Given our performance to date and our outlook for the fourth quarter, we now expect to deliver a low-single-digit increase in organic revenue (previously approximately 4 percent organic revenue growth). We continue to expect to deliver at least 8 percent core constant currency EPS growth as we will focus on tightly managing our costs to better align with the subdued growth environment that we are currently operating in."

¹ Please refer to the Glossary for the definitions of non-GAAP financial measures, including "Organic revenue growth," "Core" and "Constant currency," and to "Guidance and Outlook" for additional information regarding PepsiCo's full-year 2024 financial guidance. PepsiCo provides guidance on a non-GAAP basis as we cannot predict certain elements which are included in reported GAAP results, including the impact of foreign exchange and commodity mark-to-market net impacts. Please refer to PepsiCo's Quarterly Report on Form 10-Q for the 12 and 36 weeks ended September 7, 2024 (Q3 2024 Form 10-Q) filed with the Securities and Exchange Commission (SEC) for additional information regarding PepsiCo's financial results.

Corporate unallocated expenses	(9)	(27)	_	(36)
Total	(4)	7	2	6
EPS	(5)	8	2	5

⁽a) Excludes the impact of acquisitions and divestitures. In certain instances, the volume change shown here differs from the impact of organic volume on net revenue performance disclosed in the Organic Revenue Growth Rates table on page A-8, due to the impacts of product mix, nonconsolidated joint venture volume, and, for our franchise-owned beverage businesses, temporary timing differences between bottler case sales (BCS) and concentrate shipments and equivalents (CSE). We report net revenue from our franchise-owned beverage businesses based on CSE. The volume sold by our nonconsolidated joint ventures has no direct impact on our net revenue.

Note: Amounts may not sum due to rounding.

Organic revenue and core constant currency results are non-GAAP financial measures. Please refer to the reconciliation of GAAP and non-GAAP information in the attached exhibits and to the Glossary for definitions of "Organic revenue growth," "Core" and "Constant currency."

⁽b) Net revenue decline was impacted by a previously announced voluntary recall of certain bars and cereals in our Quaker Foods North America division (Quaker Recall).

⁽b) Net revenue decline was impacted by the Quaker Recall.

Guidance and Outlook

The Company provides guidance on a non-GAAP basis as we cannot predict certain elements which are

included in reported GAAP results, including the impact of foreign exchange translation and commodity

mark-to-market net impacts.

For 2024, the Company now expects:

A low-single-digit increase in organic revenue (previously approximately 4% organic revenue

growth).

In addition, the Company continues to expect:

At least 8 percent increase in core constant currency EPS;

· A core annual effective tax rate of 20 percent;

Total cash returns to shareholders of approximately \$8.2 billion, comprised of dividends of \$7.2

billion and share repurchases of \$1.0 billion; and

An approximate 1-percentage-point foreign exchange translation headwind to impact reported net

revenue and core EPS growth based on current market consensus rates.

This assumption and the guidance above imply 2024 core EPS of at least \$8.15, a 7 percent increase

compared to 2023 core EPS of \$7.62.

Prepared Management Remarks and Live Question and Answer Webcast

At approximately 6:30 a.m. (Eastern time) on October 8, 2024, the Company will post prepared

management remarks (in pdf format) of its third guarter 2024 results and business update, including its

outlook for 2024, at www.pepsico.com/investors. At 8:15 a.m. (Eastern time) on October 8, 2024, the

Company will host a live question and answer session with investors and financial analysts. Further

details will be accessible on the Company's website at www.pepsico.com/investors.

Non-GAAP Measures

In discussing financial results and guidance, the Company refers to the following measures which are not in accordance with U.S. Generally Accepted Accounting Principles (GAAP): organic revenue growth, core results and core constant currency results. We use non-GAAP financial measures internally to make operating and strategic decisions, including the preparation of our annual operating plan, evaluation of our overall business performance and as a factor in determining compensation for certain employees. We believe presenting non-GAAP financial measures provides additional information to facilitate comparison of our historical operating results and trends in our underlying operating results and provides additional transparency on how we evaluate our business. We also believe presenting these measures allows investors to view our performance using the same measures that we use in evaluating our financial and business performance and trends.

We consider quantitative and qualitative factors in assessing whether to adjust for the impact of items that may be significant or that could affect an understanding of our ongoing financial and business performance or trends. Examples of items for which we may make adjustments include: amounts related to mark-to-market gains or losses (non-cash); charges related to restructuring plans; charges associated with acquisitions and divestitures; gains associated with divestitures; asset impairment charges (non-cash); product recall-related impact; pension and retiree medical-related amounts, including all settlement and curtailment gains and losses; charges or adjustments related to the enactment of new laws, rules or regulations, such as tax law changes; amounts related to the resolution of tax positions; tax benefits related to reorganizations of our operations; debt redemptions, cash tender or exchange offers; and remeasurements of net monetary assets. See below for a description of adjustments to our GAAP financial measures included herein.

Non-GAAP information should be considered as supplemental in nature and is not meant to be considered in isolation or as a substitute for the related financial information prepared in accordance with GAAP. In addition, our non-GAAP financial measures may not be the same as or comparable to similar non-GAAP measures presented by other companies.

Glossary

We use the following definitions when referring to our non-GAAP financial measures, which may not be the same as or comparable to similar measures presented by other companies:

Acquisitions and divestitures: mergers and acquisition activity, as well as divestitures and other structural changes, including changes in ownership or control in consolidated subsidiaries and nonconsolidated equity investees.

Bottler case sales (BCS): Measure of physical beverage volume shipped to retailers and independent distributors from both PepsiCo and our independent bottlers.

Concentrate shipments and equivalents (CSE): Measure of our physical beverage volume shipments to independent bottlers.

Constant currency: Financial results assuming constant foreign currency exchange rates used for translation based on the rates in effect for the comparable prior-year period. In order to compute our constant currency results, we multiply or divide, as appropriate, our current-year U.S. dollar results by the current-year average foreign exchange rates and then multiply or divide, as appropriate, those amounts by the prior-year average foreign exchange rates.

Core: Core results are non-GAAP financial measures which exclude certain items from our financial results. For further information regarding these excluded items, refer to "Items Affecting Comparability" in "Item 2 – Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Q3 2024 Form 10-Q and in "Item 7 – Management's Discussion and Analysis of Financial Condition and Results of Operations" in our annual report on Form 10-K for the fiscal year ended December 30, 2023. For the periods presented, core results exclude the following items:

Mark-to-market net impact

Mark-to-market net gains and losses on commodity derivatives in corporate unallocated expenses. These gains and losses are subsequently reflected in division results when the divisions recognize the cost of the underlying commodity in operating profit.

Restructuring and impairment charges

Expenses related to the multi-year productivity plan publicly announced in 2019, which was expanded and extended through the end of 2028 to take advantage of additional opportunities within the initiatives of the plan.

Acquisition and divestiture-related charges

Acquisition and divestiture-related charges primarily include merger and integration charges and costs associated with divestitures, primarily consulting, advisory and other professional fees.

Impairment and other charges/credits

We recognized impairment charges taken as a result of our quantitative assessments of certain of our indefinite-lived intangible assets and related to our investment in Tropicana Brands Group. We also recognized adjustments to charges recorded in prior years from changes in estimates of previously recorded amounts.

Product recall-related impact

We recognized property, plant and equipment and inventory write-offs, product returns, employee severance costs, customer and consumer-related costs and other costs in our Quaker Foods North America division associated with a previously announced voluntary recall of certain bars and cereals.

Pension and retiree medical-related impact

Pension and retiree medical-related impact includes settlement charges related to lump sum distributions exceeding the total of annual service and interest costs.

Effective net pricing: Reflects the year-over-year impact of discrete pricing actions, sales incentive activities and mix resulting from selling varying products in different package sizes and in different countries.

Organic revenue growth: A measure that adjusts for the impacts of foreign exchange translation, acquisitions and divestitures and every five or six years, the impact of an additional week of results. We believe organic revenue growth provides useful information in evaluating the results of our business because it excludes items that we believe are not indicative of ongoing performance or that we believe impact comparability with the prior year.

2024 guidance

Our 2024 organic revenue growth guidance excludes the impact of acquisitions, divestitures and other structural changes and foreign exchange translation. Our 2024 core effective tax rate guidance and our 2024 core constant currency EPS growth guidance exclude the mark-to-market net impact included in corporate unallocated expenses, restructuring and impairment charges and other items noted above. Our 2024 core constant currency EPS growth guidance also excludes the impact of foreign exchange translation. We are unable to reconcile our full year projected 2024 organic revenue growth to our full year projected 2024 reported net revenue growth because we are unable to predict the 2024 impact of foreign exchange due to the unpredictability of future changes in foreign exchange rates and because we are unable to predict the occurrence or impact of any acquisitions, divestitures or other structural changes. We are also not able to reconcile our full year projected 2024 core effective tax rate to our full year projected 2024 reported effective tax rate and our full year projected 2024 core constant currency EPS growth to our full year projected 2024 reported EPS growth because we are unable to predict the 2024 impact of foreign exchange or the mark-to-market net impact on commodity derivatives due to the unpredictability of future changes in foreign exchange rates and commodity prices. Therefore, we are unable to provide a reconciliation of these measures.

Total

⁽b) Excludes the impact of acquisitions and divestitures. In certain instances, the impact of organic volume on net revenue performance differs from the unit volume disclosed in the Summary Third-Quarter 2024 Performance table and Summary Year-to-Date Performance on pages 2 and 3, respectively, due to the impacts of product mix, nonconsolidated joint venture volume, and, for our franchise-owned beverage businesses, temporary timing differences between BCS and CSE. We report net revenue from our franchise-owned beverage businesses based on CSE. The volume sold by our nonconsolidated joint ventures has no direct impact on our net revenue.

⁽c) Net revenue decline was impacted by the Quaker Recall.

Cautionary Statement

Statements in this communication that are "forward-looking statements," including our 2024 guidance and outlook are based on currently available information, operating plans and projections about future events and trends. Terminology such as "aim," "anticipate," "believe," "drive," "estimate," "expect," "expressed confidence," "forecast," "future," "goal," "guidance," "intend," "may," "objective," "outlook," "plan," "position," "potential," "project," "seek," "should," "strategy," "target," "will" or similar statements or variations of such words and other similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain such terms. Forward-looking statements inherently involve risks and uncertainties that could cause actual results to differ materially from those predicted in such forward-looking statements. Such risks and uncertainties include, but are not limited to: the risks associated with the deadly conflict in Ukraine; future demand for PepsiCo's products; damage to PepsiCo's reputation or brand image; product recalls or other issues or concerns with respect to product quality and safety; PepsiCo's ability to compete effectively; PepsiCo's ability to attract, develop and maintain a highly skilled and diverse workforce or effectively manage changes in our workforce; water scarcity; changes in the retail landscape or in sales to any key customer; disruption of PepsiCo's manufacturing operations or supply chain, including continued increased commodity, packaging, transportation, labor and other input costs; political, social or geopolitical conditions in the markets where PepsiCo's products are made, manufactured, distributed or sold; PepsiCo's ability to grow its business in developing and emerging markets; changes in economic conditions in the countries in which PepsiCo operates; future cyber incidents and other disruptions to our information systems; failure to successfully complete or manage strategic transactions; PepsiCo's reliance on third-party service providers and enterprise-wide systems; climate change or measures to address climate change and other sustainability matters; strikes or work stoppages; failure to realize benefits from PepsiCo's productivity initiatives; deterioration in estimates and underlying assumptions regarding future performance of our business or investments that can result in impairment charges; fluctuations or other changes in exchange rates; any downgrade or potential downgrade of PepsiCo's credit ratings; imposition or proposed imposition of new or increased taxes aimed at PepsiCo's products; imposition of limitations on the marketing or sale of PepsiCo's products; changes in laws and regulations related to the use or disposal of plastics or other packaging materials; failure to comply with personal data protection and privacy laws; increase in income tax rates, changes in income tax laws or disagreements with tax authorities; failure to adequately protect PepsiCo's intellectual property rights or infringement on intellectual property rights of others; failure to comply with applicable laws and regulations; and potential liabilities and costs from litigation, claims, legal or regulatory proceedings, inquiries or investigations.

For additional information on these and other factors that could cause PepsiCo's actual results to materially differ from those set forth herein, please see PepsiCo's filings with the SEC, including its most recent annual report on Form 10-K and subsequent reports on Forms 10-Q and 8-K. Investors are cautioned not to place undue reliance on any such forward-looking statements, which speak only as of the date they are made. We undertake no obligation to update any forward-looking statement, whether as a result of new information, future events or otherwise.
